**October 28, 2024**

**Cimbar Resources Inc announces a general price increase effective January 1, 2025**

Cimbar Resources Inc. will be implementing a general price increase effective January 1, 2025, or as contracts allow. Depending on the mineral, price increase will range from 3% to 15% affecting the following: Aluminum Trihydrate, (ATH), Industrial Barium Sulfate, Calcium Carbonate and Recycled Mineral Filler.

This adjustment is necessary due to the ongoing increases in raw materials costs, operational expenses and general inflation. While we have worked diligently to control these rising costs, a portion of these increases must be passed on to ensure we continue providing reliable and sustainable service to you.

We greatly value your partnership and thank you for your continued trust in Cimbar Resources, Inc. Should you have any questions or concerns, we encourage you to reach out to your Cimbar Account Executive or Customer Service Support Team.

Best regards,

*Mark Gillespie*
